Electronic assistive technology: Practical workshop

This course is for Cerebral Palsy Alliance employees

Who is this course for?

This course is for Occupational Therapists and Speech Pathologists.
If this course is relevant to your role, please discuss with and get approval from your manager.

What content does the course cover?

In this hands-on training session, you will further develop your skills and knowledge in Electronic Assistive Technology and collaborative practice through the use of case studies and practical application.
This includes:

- Working through the client journey according to Electronic Assistive Technology service delivery
- Following the SETT framework to identify and implement solutions collaboratively
- Mounting and positioning of computer, communication, and environmental control technology
- How collaborative practice between Occupational Therapists and Speech Pathologists can maximise client outcomes.

Does the course have prerequisites or specific requirements?

The following must be completed before attending:

- Electronic assistive technology: Introduction – online

What other details do I need to know?

Attendance type: In person (face to face)
Duration: 1 day
Times: Please select a course date below or if there are no dates, please click Enquire
Refreshments: Please bring your own lunch (as required)
If you need to cancel: Cancellation guidelines
