

Enabling EDIE: Understanding Dementia

This course is for Cerebral Palsy Alliance employees

Who is this course for?

This course is for client facing managers and teams in disability services who support clients with dementia.

What content does the course cover?

This immersive workshop enables participants to see the world through the eyes of a person living with dementia utilising high quality virtual reality technology. This workshop enhances your knowledge of dementia whilst exploring a supportive approach to living more confidently with dementia. This program explores what it may feel like to experience dementia, care for someone living with dementia and to work in partnership to identify support needs and develop a support plan. During the 3 hour Enabling EDIE™ program you will develop a greater understanding of:

- Dementia across various stages
- A consumer perspective of dementia
- Dementia support considerations including individual and diverse needs.
- How to identify support needs in partnership with the client and their carer
- How to develop a dementia support plan that focuses on enabling a person to live more confidently with dementia
